

AFC-IWLA Member Dedicated Range Time at the Sills Air Range

Starting Sunday, 24 June 2018, the Sills Air Range will be open to chapter members and their guests from 12 Noon to 5 PM. This will continue on Sundays throughout the remainder of CY 2018. Volunteer range safety officers will be running the range. Due to limited staff, coaching will not be available. New shooters seeking coaching should attend the open hours on Monday or Friday evenings.

Chapter members with a valid range badge will have access to the range air rifles and IZH air pistols, as well as compressed air, pellets and targets. After five visits, chapter members are expected to either provide all their own equipment and supplies (including compressed air) or pay the yearly air range consumables fee.

For the Sunday sessions, the Sills Air Range will have the same “one badge, one gun, one lane” policy as used at the pistol/rifle range. Chapter members will be responsible for supervising their guests.

On their first visit, members and guests are required to receive the air range safety brief and complete the informed consent form before they can begin shooting. For the first and subsequent visits, members and guests must sign-in and sign-out using the SINE-Pro kiosk next to the range safety officer station.

Range operations are limited to air rifles and air pistols using .177 caliber pellets (diablo/wadcutter) at ≤ 650 fps.

If you would like to volunteer as a range safety officer or coach for the adult sessions, contact Mark Budgeon, mgbudgeon@verizon.net, 703-490-5817.

Before leaving for the range, check <https://tinyurl.com/airrangecalendar> in advance for cancellations that may affect the Sunday range operations.
